

**FOR IMMEDIATE RELEASE**

## **Middletown Public Schools Selects MyPaymentsPlus for Cashless Meal Payments**

*-- Parents can now make students' meal payments online, via smart phone and tablet apps --*

**Middletown, CT** Middletown Public Schools now offers parents and guardians the convenience of making secure, cashless payments online for their children's school meals through MyPaymentsPlus, an online payment system that also offers mobile apps for smartphones and tablets.

Middletown Public Schools encompasses about 5,000 students and 11 schools throughout the area. MyPaymentsPlus gives the students and their families a secure and convenient system to manage their meal payments in one location.

Through MyPaymentsPlus, parents can:

- Securely make one-time payments or auto-payments for meals through MyPaymentsPlus.com, as well as the MyPaymentsPlus app for Apple iOS and Android devices;
- See what food selections their children are making in the cafeteria line – which can help them instill healthy eating habits even while their child is at school; and
- Check account balances and receive reminders via email and push notifications when an account balance is low.

"All parents with children attending schools in Middletown can take advantage of this great system," says Tina Bennett, vice president of online payment systems for Horizon Software International, developers of MyPaymentsPlus. "We look forward to providing this new service to families within the community, and hope to help make the lives of busy parents a little simpler."

For more information or to set up an account, visit [www.MyPaymentsPlus.com](http://www.MyPaymentsPlus.com), or call 1-800-741-7100.
